Summary

Results-driven Senior Software Engineer with 6+ years of experience in developing and scaling cloud-native enterprise applications using React, .NET 8, and Azure. Expertise cloud database re-sharding and API performance optimization. Awarded Deltek MVP and Catalyst Awards for innovative architecture redesigns and AI capability deployments. Committed to delivering forward-thinking solutions to enhance productivity.

Skills

Languages & Frameworks: React.js, JavaScript (ES6+), TypeScript, .NET 8 / .NET Core, C#, GraphQL, REST APIs, HTML5/CSS3, Tailwind CSS

Cloud & Databases: Azure (App Services, Azure Functions, Azure DevOps), Cosmos DB, SQL Server, Redis

Architecture & AI: Microservices, Distributed Systems, Performance Tuning, API Design, LangGraph, LLM Integration, Prompt Engineering

Experience

Deltek | Remote, India **Senior Software Developer** | July 2024 – Present

- Built core content model for flagship Specpoint platform and improved Get Content API, cutting response times from 8 seconds to 1 second.
- Helped redesign Cosmos DB partitioning for high-growth partitions above 20 GB and migrated 40+ million live records from 2-partition-key setup to 3-partition-key model, supporting sub-second query latency through repository patterns.
- Developed production React track changes engine with custom diffing algorithms for structured engineering documents.
- Supported Dela AI Assistant management for Specpoint by integrating agentic workflows and LLM reasoning pipelines into enterprise tools.
- Received Deltek Catalyst Award (Q3 2026) and Deltek MVP Award (2025) for architectural redesign of content distribution layer.
- Led Deltek software architecture discussions for new product features.
- Designed APIs and backend services for Deltek client applications.

Infosys | Gurgaon, India **Associate Consultant** | August 2022 – June 2024

- Built and enhanced React.js based web pages and reusable components integrated with .NET and GraphQL APIs for enterprise clients.
- Cloud DevOps & CI/CD: Designed and managed automated Azure DevOps deployment pipelines.
- Performance Engineering: Optimized GraphQL resolvers and API response payloads.
- Built high-performance React user interfaces for Microsoft Partner Management Portal, integrating with GraphQL services and .NET Core microservices to enhance user experience.
- Recognition: Received the Insta Award for outstanding client delivery and critical production bug resolution.
- Developed hybrid applications to streamline feature delivery across platforms.

J.K. Tech | Noida, India **React.js Developer** | January 2020 – August 2022

- Developed responsive React.js UIs for enterprise applications, focusing on reusable components and cross-browser compatibility.
- Standardized UI Architecture: Developed centralized library of reusable React components, enhancing UI/UX consistency across client portals.
- Performance Tuning: Streamlined frontend rendering pipelines and state management, minimizing unnecessary component re-renders.
- REST API Migration: Transitioned legacy application modules to modern RESTful microservices, significantly improving frontend-to-backend data reliability.

Projects

- Agentic AI Reasoning Engine, .NET 8, C#, Python, Python | LangGraph | OpenAI API, Developed an autonomous multi-step agent system using LangGraph and state-machine execution logic., Built automated pipelines to parse, process, validate, and summarize complex technical documentation autonomously.
- Shivra Attar – E-Commerce Brand Platform, React | Firebase | Tailwind CSS, Executed a 24-hour rapid prototyping hackathon to build and deploy a serverless brand platform (shivra-attar.web.app)., Achieved 95+ Lighthouse performance scores through aggressive asset optimization, responsive design, and zero-maintenance cloud backend deployment.
- Engineering Portfolio Showcase, React | Tailwind CSS | Firebase, Architected a performance-focused personal showcase (portfolio-app-15fc8.web.app) documenting cloud architecture case studies and technical research.

Education & Certifications

- **Master of Computer Applications (MCA)** | 2020
  Gurukula Kangri Vishwavidyalaya, Haridwar | SGPA: 8.5
- **Microsoft Certifications:** M100, M200, AZ-200 (Azure / Data / Analytics related)
- **AI / GenAI:**
  Completed multiple GenAI-focused internal and external trainings/certifications covering AI-assisted development, prompt engineering and AI in Azure.

Industrial Training: 6 weeks – J.K. Technosoft Ltd.

Awards & Achievements

- Catalyst Award, Deltek (Q3 2026), Recognized for successfully migrating more than 40 million live Cosmos DB records from a two-partition-key to a three-partition-key model.
- MVP Award, Deltek (2025), Specpoint content distribution redesign.
- Insta Award, Infosys (2023), Critical production issue resolution.
